

Disclaimer

Our purpose is to provide you with accurate information that equips you to make a well-informed decision. We provide a safe environment, without judgment, for you to take the time you need to process the issues surrounding an unplanned pregnancy.

Our Support Workers are trained volunteers. They are not licensed counsellors; however they have a deep commitment to each individual's specific needs. The support is not a substitute for professional counselling.

We are not a medical clinic or laboratory. We neither perform nor provide referrals for abortion. A licensed physician must confirm the results of your test to diagnose you as pregnant.

We are not an adoption agency and are not affiliated with any adoption agency. If you wish to make a plan for adoption, we can provide you with referrals for adoption agencies/ licensees.

We feel confidentiality is of utmost importance; therefore all information is kept confidential, except where required by law to report, in such cases as abuse or threatened suicide/homicide.
